Subject: Bradford Island - EPA / USACE check-in call this afternoon

Hi, Chris.

Look forward to catching up with you this afternoon. I'm hoping we can get a status update on several items:

1. Community interviews – started this week. How are they going? How were Laura's comments on the interview questions addressed?
2. EPA decision to begin technical meetings with the States and Tribes
3. River OU – status of A&E contract? Plan to discuss data gaps, DQOs for next round of investigation?
4. Following up on our June 23 in-person meeting at Bradford Island, EPA is still expecting several things from USACE. Who is on point for:
 - Governance structure / partnering approach for agency coordination and a strategy for how we would elevate issues among our teams (PLT, MLT, ELT)
 - Technical point of contact (at CX) for the FFA
 - Write-up on the regulatory action where USACE had FACA problems. We are hoping to understand how the facts in that case inform a CERCLA coordination team
 - Set of projects documents being reviewed by your FFA team, or at least a list of them. I am assuming our team will be asked to review them. Any head start we can get on this task would be helpful.

Talk to you soon --
